

***Elections Center Workshop***  
***“How is Florida Preparing for the 2016 Election Cycle”***

*On February 27, 2015 your Supervisor of Elections had the honor of representing small counties in Florida as I was asked to sit on a discussion panel during The Elections Center workshop held in Tampa. The topic of conversation was “How is Florida Preparing for the 2016 Election Cycle”. Along with Supervisors from medium and large counties we gave a unique view as to how each jurisdiction differs in how we conduct elections while maintaining the same level of integrity to the democratic process. It was a wonderful opportunity to meet other small counties from across the country and compare notes while building best practices.*
