

## *Supervisor of Elections Roundtable Lake City, Florida*

On January 28, 2015, your Supervisor of Elections traveled to Lake City to join in a roundtable discussion with other Supervisors in our area. With the 2014 election cycle still fresh on everyone's mind we took the opportunity to share experiences we encountered and ways to improve the voting process for the many voters we service. We also discussed the activities that elections offices across the state will now be conducting such as city elections, list maintenance, records retention, and voting equipment preventative maintenance scheduling. Additionally, we discussed voter education and ways to reach those individuals who are not registered as well as ways to stay in touch with our voters using social media. Your Supervisor of Elections is always looking for ways to improve the voting process, as well as reaching every eligible citizen who needs to make their voice heard, by not only registering to vote, but by voting as well.
