

Taylor Technical Institute

April 2015

Dana Southerland and staff from the Taylor County Supervisor of Elections office visited Taylor Technical Institute (TTI) April 14th, 15th, and April 21st to offer voter registration to any interested students as well as answer any questions regarding voting and the upcoming elections. During the three day span, 7 students were eager to have their voice heard and registered to vote. Many of these students will be 18 in time to vote in the 2016 elections. A special thanks to Ms. Johnson and the entire staff for helping coordinate our visit and for the students at TTI...what a great asset they are to our community!
