

# Taylor County Elementary School Open House

August 24, 2015

Your Supervisor of Elections and staff attended the open house recently held at TCES. In addition to offering voter registration and election information to those parents in attendance, we also had a student ballot available. This was a great way for your elections office to introduce not only the importance of voting but how each vote makes a difference. The students voted on their favorite summer activity as well as their favorite school subject. 100 students participated in the election: Playing Video Games received the most votes for Favorite Summer Activity and P.E. receiving the most votes for Favorite School Subject. Thank you TCES administration for allowing us this opportunity.
