

Taylor County Middle School Open House

Your Supervisor of Elections and staff attended the open house recently held at TCMS. In addition to offering voter registration and election information to those parents in attendance, we also had a student ballot available. This was a great way for your elections office to introduce not only the importance of voting but how each vote makes a difference. The students voted on their favorite Florida college football team using actual voting equipment used in real elections. 72 students participated in the election. Florida Gators won with a total of 37 votes, Florida State Seminoles was a close second with 32 votes. With just a 5 vote difference, this is proof that every vote does make a difference and that everyone should vote in order to make their voice heard. Thank you TCMS administration for allowing us this opportunity.
