

GEMS Training Hernando County

On February 3-7, 2014, your Supervisor of Elections, Dana Southerland, and staff attended and completed a training class on our election management system. This was a refresher course, but was a great opportunity to ask questions and view first hand any changes and updates to our existing program.

Once qualifying ends in June, we will be finalizing the ballot which will bring us one step closer to the 2014 Primary Election.
