

Small County Workshop

On Friday, January 10, 2014, your Supervisor of Elections and staff had the opportunity to travel to Madison for a Small County Workshop. This is always a great time for counties of like size to compare notes and see what we might do more efficiently. It also gives us the chance to bring back new ideas that we think might benefit the voters of Taylor County. Round table discussions were had on early voting, electronic poll books and best practices with everything elections related.
